Assessing the Landscape

Country practices

Session objectives

- Discuss current country practices

- Assess how these can support the development of DG indicators

- Discuss the feasibility of measuring specific principles

OECD Recommendation on Digital Government Strategies

Openness and Engagement

1) Openness, transparency and inclusiveness

2) Engagement and participation in a multi-actor context in policy making and service delivery

3) Creation of a data-driven culture

4) Protecting privacy and ensuring security

Governance and Coordination

5) Leadership and political commitment

6) Coherent use of digital technology across policy areas

7) Effective organizational and governance frameworks to coordinate

8) Strengthen international cooperation with other governments

Capacities to Support Implementation

9) Development of clear business cases

10) Reinforced institutional capacities

11) Procurement of digital technologies

12) Legal and regulatory framework

Creating Value Through the Use of ICT

I · II · III

* Preliminary assessment of input

Pillar I

Pr.	Country data collection	OECD
1	National portal; OGD; FOIA; Social media; digital services; eID	National portal; OGD; FOIA; Social Media; digital services
2	Participation platforms; consultations; OGD re-use; SM	National portal; OGD; FOIA; Social Media; digital services; stakeholder consultation and engagement;
3	eID; interoperability; once only principle; cloud; government data center; data skills and training	Once only principle; data skills and training; existence of CDO; data inventories; use of metrics and indicators
4	CERT, incidents, individual certifications; domain management	Number of incidents; critical alerts; financial resources allocated; staff size; complaints by sector

Pillar II

Pr.	Country data collection	OECD
5	ICT governance and its levers; stakeholder involvement in the elaboration of strategy	ICT governance, location, reporting, levers; national strategies, stakeholders involved
6	eID, once only principle, DG strategy, interoperability	National strategies; coordination tools and mechanisms
7	Central-local coordination; responsibilities and levers	ICT governance structures; national strategies, coordination tools and mechanisms, policy levers
8	International meetings	TBD

Pillar III

Pr.	Country data collection	OECD
9	Investment management frameworks; existence and use business cases; ex ante calculation of costs, benefits, duration	Use of business cases; funding models for OGD
10	Efficient management of ICT project; performance of horizontal services; investment monitoring; IS management system	Business cases; ICT project management; digital and data skills; SHRM
11	IT Procurement systems, strategies and performance	ICT Procurement strategy; ICT procurement systems; contract repositories; ICT asset management; supplier performance
12	FOIA, once only principle, digital by default, open by default, mandatory digital services, Green IT policy; online communications	FOIA; Open by default; Once only principle; mandatory digital services; online communications

Challenge

How to transform ideas into practices?

We have a dream

Let's launch it

Let's make it concrete

In other words

(Or being a little bit more artistic)

We are all in the Cloud

We just need to bottle it and drink it

We Want You

to be part of this process

Austria

Belgium

Finland

Italy

Lithuania

Mexico

Netherlands

New Zealand

Norway

Portugal

Slovenia

Spain

Sweden
